## Small Thread rolling machine Magnaghi - type R802

The **802 thread rolling machine** is a hydraulic rolling machine equipped with 2 fixed roller-bearing spindles. Manual or automatic operation controlled by PLC or CNC. The 802 rolling machine can be equipped with automatic piece loaders.

It has a max thrust power of 10 t.

Ideal for **threading (iso, acme, tpn, etc.) small-diameter (2-8 mm) parts.**

Max thread length 40 mm.

Thread rolling machines Features	R 802
- Hydraulic or mechanical operation	
maximum force	KN.80
Spindle diameter	mm.40
Maximum thrufeed thread rolling length	mm.60
Maximum dies diameter	mm.100
Spindles rotation speed	rpm /min. 40-70
Installed power	KW. 1,5
Net weight	Kg. 800
